

Lesson Plan: Narcan Refresher

Topic:	Narcan Refresher
Specific Topic:	Naloxone Administration
Presenter:	West Michigan Regional Medical Consortium CE Sponsor Program
Location:	West Michigan Regional Medical Consortium CE Sponsor Locations
Credit Category:	Preparatory
License Level:	MFR, EMT, SPEC, MEDIC
Credits:	1
Format:	0.5-hour Lecture; 0.5-hour Practical

Objectives: At the conclusion of this CE session, the participants will be able to:

Cognitive

1. List and describe 6 rights of medication administration.
2. Discuss the importance of completing a medication cross check before administering a medication.
3. List indications, contraindications and precautions, and adverse/side effects for administration of narcan.
4. Recall adult and pediatric dose of narcan when given IN and cite relevant protocols.
5. Describe procedures to ensure every administration of narcan is reported to the medical control authority.

Psychomotor

1. Demonstrate how to prepare narcan administration set and administer via IN in a simulated scenario.
2. Demonstrate safe handling of medications and sharps.
3. Demonstrate appropriate documentation of medication administration, including medication name, dose, route, time, indications and effects.

Affective

None

Outline for Session

1. Introduction
2. Medication Administration Considerations
 - A. 6 patient Rights of Medication Administration
 - i. Right Patient
 - ii. Right Medication
 - iii. Right Dose
 - iv. Right Route
 - v. Right Time
 - vi. Right Documentation

Lesson Plan: Narcan Refresher

- B. Medication Cross Check
- 3. Narcan
 - A. Indications
 - B. Contraindications
 - C. Precautions
 - D. Adverse/Side Effects
 - E. Adult Dose
 - F. Pediatric Dose
- 4. Documentation
 - A. Key data elements when documenting Medication Administration
 - i. Medication Administered
 - ii. Indications
 - iii. Dose
 - iv. Route
 - v. Time
 - vi. Effects
 - B. Reporting Medication Administration to Medical Control
- 5. Scenario #1 – Narcotics Overdose
 - A. Given a scenario students will:
 - i. Manage ABCs
 - ii. Call for ALS as needed
 - iii. Identify patients that require narcan
 - 1. List and describe indications
 - iv. Administer narcan IN using simulated narcan (normal saline) into a simulated patient
 - v. Reassess the patient for desired effect
 - B. Post scenario, the instructor will list all correct and incorrect actions taken by the students and provide strategies to eliminate incorrect actions
- 6. Summary and Questions

Student Evaluation Method: An evaluation of the students' case based scenario performance will occur.

Evaluation of Presentation: Continuing Education Program Sponsor Evaluation Form will be filled out by all participants.
