

This is an introduction course in the Federal Incident Command Structure. At times of a mass casualty incident or chaos, there must be a simplistic and universal system to know “who is in charge” and who to report to within the Emergency Department and our surrounding community. At completion of this on-line training program, a certificate of completion will be mailed to you and should be turned into the EMS faculty advisor for placement in your permanent file.

INSTRUCTIONS

Look on the right side of the page; **FIRST**, locate the heading on the right under **TAKE THIS COURSE** and click on the link immediately below; after you are done taking the coursework, you can look just underneath to the next heading entitled **TAKE FINAL EXAM**; click the link to take the test online
