

**Standardized EMS
Continuing Education
Credits Guidebook
Effective
January 25, 2022**

Executive Summary

Purpose

The purpose of this standardized guidebook is to identify approved continuing education credits for a wide variety of certification courses completed by EMS providers during their licensure period.

Changes

The following certification courses were added to this guidebook in 2022:

- Emergency Vehicle Operations Course-McNeil & Company
- Group and Individual Crisis Intervention (GRIN)-UBMC
- Hazardous Materials Operations Refresher-MSP
- Neonatal Resuscitation Essentials Course

There were no courses removed from this guidebook in 2022.

Added language regarding continuing education requests from outside of Michigan approved or CAPCE accredited CE.

Pacific Medical Training was added as an approved BLS CPR program.

Conclusion

This standardized guidebook is reviewed for current content and is updated frequently. A certificate of completion must be obtained from the approved vendor to qualify for these continuing education credits. The description of requirements are identified at the top of the course. To qualify for standardized credits, please see page 3 of this guidebook. The conversion document for appropriate CE categories are on the last two pages of this document.

Instructor/Coordinator Guide to Standardized Continuing Education Credits

Each of the following standardized courses have been pre-approved by MDHHS-BETP for EMS continuing education credits. Instructor/Coordinators do not need to complete a Notification of Intent to Conduct Continuing Education Program Form for the courses listed in this guidebook.

To be included in this guidebook, a program must be presented frequently in Michigan, be presented consistently every time from a published curriculum and have a state or national organization which sponsors it, provides oversight, and issues a standardized certificate or card.

If audited for continuing education credits at the time of license renewal, EMS providers must submit to MDHHS-BETP a copy of the course certificate, card, or other attendance documentation which includes course date and instructor signature.

Any courses completed at the Center for Domestic Preparedness can be reviewed by the EMS Education Coordinator for conversion to MI CEs with submission of the FEMA Certificate.

Requests for Approval for EMS Credit Outside of Michigan Approved CE or CAPCE Accreditation

TO REQUEST APPROVAL FOR EMS CREDIT FOR RENEWAL OR RELICENSURE : For renewal or re-licensure you must maintain and/or submit documentation of all continuing education (CE) requirements for your license level obtained within 3 years. If you have obtained continuing education credits for another health profession and would like to have it reviewed for EMS CE credit approval, you may submit a request for approval via email to: MDHHS-CE@michigan.gov. With your email, please attach the following applicable documentation for review.

- A copy of the certificate of attendance for continuing education or CME from the professional organization that it was received.
- Credit hours may be awarded for each semester credit earned for academic courses related to EMS, that are offered either in an educational program approved by the Michigan boards of medicine, osteopathic medicine, or nursing, or in an approved physician assistant program. Please include a copy of your transcript(s) and course description(s) from the college catalog for the classes you believe are EMS related.
- Credit hours may be approved for programs offered by out-of-state or military sponsored EMS agencies before license renewal. Please submit a copy of your certificate of attendance for approval.
