

MEMORANDUM

To: All Non-Transporting Life Support Agencies in Region 6

Date: 05/27/2025

Subject: Triage Tag Day

Region 6 Triage Tag Day

October 15, 2025

July 15th is the Region 6 triage tag day. The purpose of this exercise is to test the MCI triage tag/ triage tape or ribbon process for EMS and hospitals.

What is required of you?

1. Apply a triage tape or ribbon to all patients being transported to an Emergency Department prior to a transport unit's arrival. **Do not delay patient care to apply triage tape or ribbon.**
2. In your ePCR please indicate the triage color of tape or ribbon applied to the patient... **Please do not skip**

What do I tell my patients if they have a question?

You should explain to the patient that this is part of an exercise to be better prepared for disaster response. The triage tag will not change their treatment in any way.

What is the time frame for this event?

The exercise begins on October 15 at 0700 and ends on October 16 at 0700.

If you have any questions, please contact your supervisor.

Please use the QR code to submit feedback about triage tag day (The QR code is clickable in electronic format).
